Value Creation Case Study

THE AVENUE, WASHINGTON, DC

- 335 Units
- 50,000 SF of Retail including Whole Foods
- Delivered in 2011 for \$127M
- Stabilized within 12 months
- Cash-on-Cash Return of ~7.3%
- Sold Leasehold Interest in 2015 for \$196M
- ~4.1% Cap Rate
- **\$69M of Value Creation**

Value Creation Case Study

THE AVANT, RESTON, VA

- 359 Units
- 29,000 SF of Retail Including a CVS, Barcelona Wine Bar and Bartaco
- Delivered in 2013 for \$122M*
- Stabilized in 15 Months
- Projected Cash-on-Cash Return of Over 6%
- Projected Valuation @ 4.1% Cap Rate
- **~\$25M of Projected Value Creation***

* Residential Component of the Project.

Private Capital Partner Growth Strategy

- Leverage BXP market knowledge & brand to source new opportunities
- Increase yields with development & asset management fees
- Entitlement & development expertise differentiates BXP compared to smaller local sponsors
- Strong relationships with existing and potential capital partners seeking multi-family investments in gateway markets

Case Study

BLOCK D RESTON NEXT

- 508 units; 417,000 RSF
- 39-story Tower (Tallest Residential Building in the State)
- Over 18,000 SF of Amenity Spaces;
 - Large Co-Working/Work-From-Home Space
 - Fitness Center
 - Pool
 - Fire Pit Areas, Outdoor Kitchen/TV's, and Numerous Collaborative Spaces

Case Study

BLOCK D RESTON NEXT

- JV w/ PGIM for Residential Component; PGIM–80%, BXP–20%
- Core Plus Fund (PRISA II)
- Estimated Delivery in Q2 2024
- Total Estimated Investment of \$214M (including PGIM's Share)
- BXP = Sponsor; Development & Asset Manager
- Promote Structure

Office to Residential Conversions

- Recent Internal Deep Dive Led to a Scorecard Assessing the Feasibility of Conversion Candidates
- High Inventory of Aging, Class B and C Office Buildings in Several BXP Markets Could Lead to Opportunities
- Political Tailwinds in All BXP Markets
- Assembled a Design/Consultant Team to Quickly Study Opportunities

Residential Platform Path Forward

- Dedicated Resources to Growing the Business
- Strong Rent/NOI Growth in Existing Portfolio
- Execute Actionable Pipeline
- Pursue Land Holdings for Potential Additional Pipeline
- Focus on Sourcing New Development Opportunities
- Office to Residential Conversion Focus
- Private Capital Partners to Fund Growth

ESG Program Overview

Environmental, Social, Governance (ESG) Strategy

- Conduct our business in a manner that contributes to positive economic, social and environmental outcomes for our customers, shareholders, employees and the communities we serve.
- Develop and maintain healthy, high-performance buildings, while simultaneously mitigating operational costs and the potential external impacts of energy, water, waste, greenhouse gas emissions and climate change.
- Promote positive social impact -- exhibited by our commitments to charitable giving, volunteerism, public realm investments and promoting diversity and inclusion in the workplace and our communities.

Success Depends on Collective Action

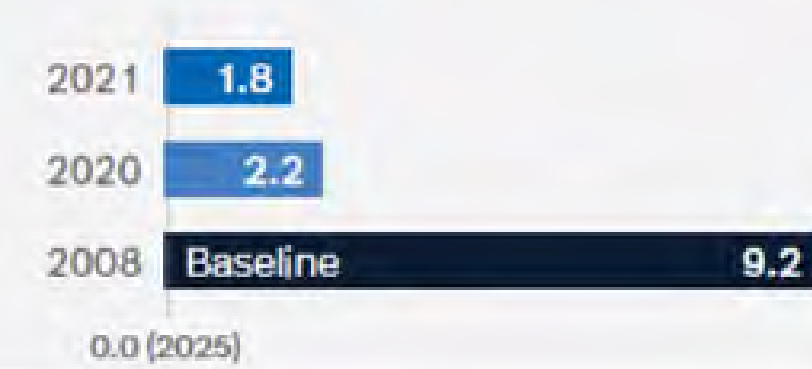

32x25 Energy Use Reduction Goal

Reduce energy use intensity, targets a 32% reduction by 2025. Units are kBtu/SF.

2025 Carbon-Neutral Operations Goal

Reduce Scope 1 and Scope 2 GHG emissions intensity, targets net-zero carbon emissions from operations by 2025. Units are kgCO₂e/SF.

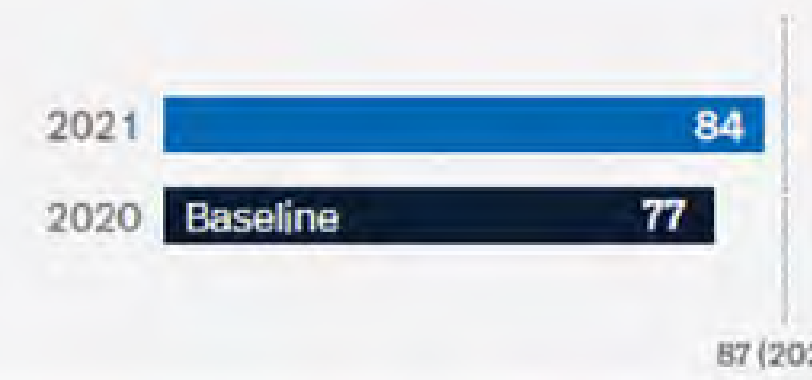

45x25 Greenhouse Gas Reduction Goal

Reduce Scope 1 and Scope 2 GHG emissions intensity, targets a 45% reduction by 2025. Units are kgCO₂e/SF.¹

87x25 Building Certification Goal

Increase building certifications, including ENERGY STAR, LEED and Fitwel 10% by 2025. Units are % SF certified.

39x24 Science-based Scope 1+2 Emissions Target

Reduce Scope 1 and Scope 2 GHG emissions intensity 39% by 2024. Units are kgCO₂e/SF.¹

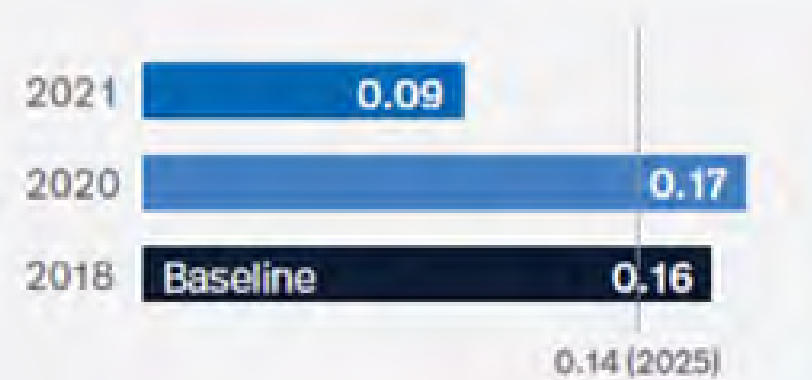

30x25 Water Use Reduction Goal

Commitment to reduce water use intensity, targets a 30% reduction by 2025. Units are gallons/SF.

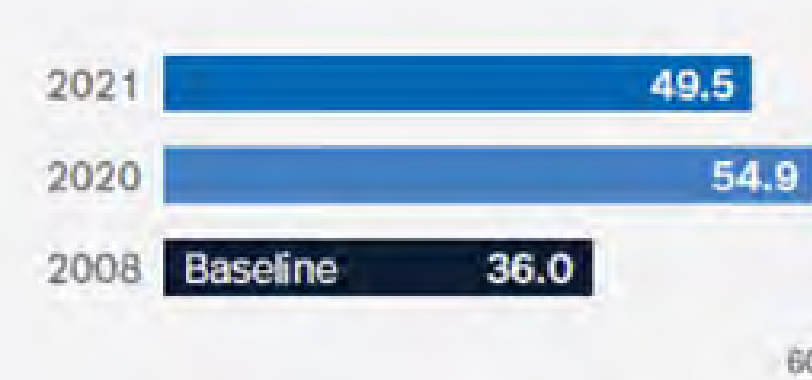

14x25 Science-based Scope 3 Emissions Target

Reduce Scope 3 – Capital Goods GHG emissions intensity 14% by 2025. Units are MTCO₂e/M2.

60x25 Waste Diversion Goal

Increase waste diverted from landfill, targets a 60% diversion rate by 2025. Units are % diverted.

Carbon Neutral Operations

Strong Net Zero Ambition

We are committed to achieving carbon-neutral operations, or net-zero carbon dioxide equivalent emissions, which includes direct and indirect scope 1 and scope 2 emission, by 2025 from our occupied and actively managed buildings where we have operational control.

- **Energy Efficient Operations** – Approximately 1/3 of total carbon reductions by 2025 (below a 2008 base year) from energy conservation and efficient operations.
- **100% Renewable Electricity** – Advancement of onsite development of renewable energy systems and sourcing offsite renewable energy to meet 100% of our electricity needs by 2025.
- **Electrification** – Explore and advance electrification, prioritizing electrification of new developments and replacement of onsite gas-fired systems at existing buildings at the end of their useful lives.
- **Carbon Offsets** – To the extent necessary, offset any remaining emissions during the transition to carbon-free energy.

100% Renewable Electricity

Onsite Renewable Energy Production

We have 13 projects in-service, totaling 8 MW of generation that provided around \$340K of annual energy cost savings in 2021. On an annual basis, BXP’s solar projects produce 1.6% of the total electricity consumed by all actively managed office buildings.

Priorities

- Work with regions to support growth opportunities in Waltham, Needham, Reston and San Francisco (5+ MW pipeline)
- Increase onsite energy storage capacity
- Create greater value by anchoring net zero claims in solar, increasing operating cost savings and/or revenue with site license/rent payments (solar and storage)

100% Renewable Energy Production

Offsite Renewable Energy Procurement

Our electricity supply agreements include green power requirements and renewable energy certificates for 70% of the electricity we buy for base building operations and our customers. We have a goal to achieve 100% by 2025.

Priorities

- Continue to convene Renewable Energy Working Group comprised of BXP’s energy procurement experts
- Execute 100% renewable electricity strategy and finalize cost model
- Maximize contributions from *additionality*
- Advance *virtual power purchase agreement (VPPA)* diligence with Edison Energy

	ENVIRONMENTAL IMPACT	COST EFFECTIVENESS	VISIBILITY/ REPUTATIONAL IMPACT	
RENEWABLE ENERGY CERTIFICATES (RECs)	Low	Medium	Low	BOSTON, NEW YORK, DC
GREEN TARIFFS/ SUPPLIER CHOICE	Medium	Low	Low	SF, DC, LA
ON-SITE GENERATION	Medium	High	High	NEW YORK, BOSTON, DC
COMMUNITY SOLAR	Medium	High	High	BOSTON
VIRTUAL POWER PURCHASE AGREEMENT	High	High	High	BOSTON, NEW YORK, DC, SEATTLE

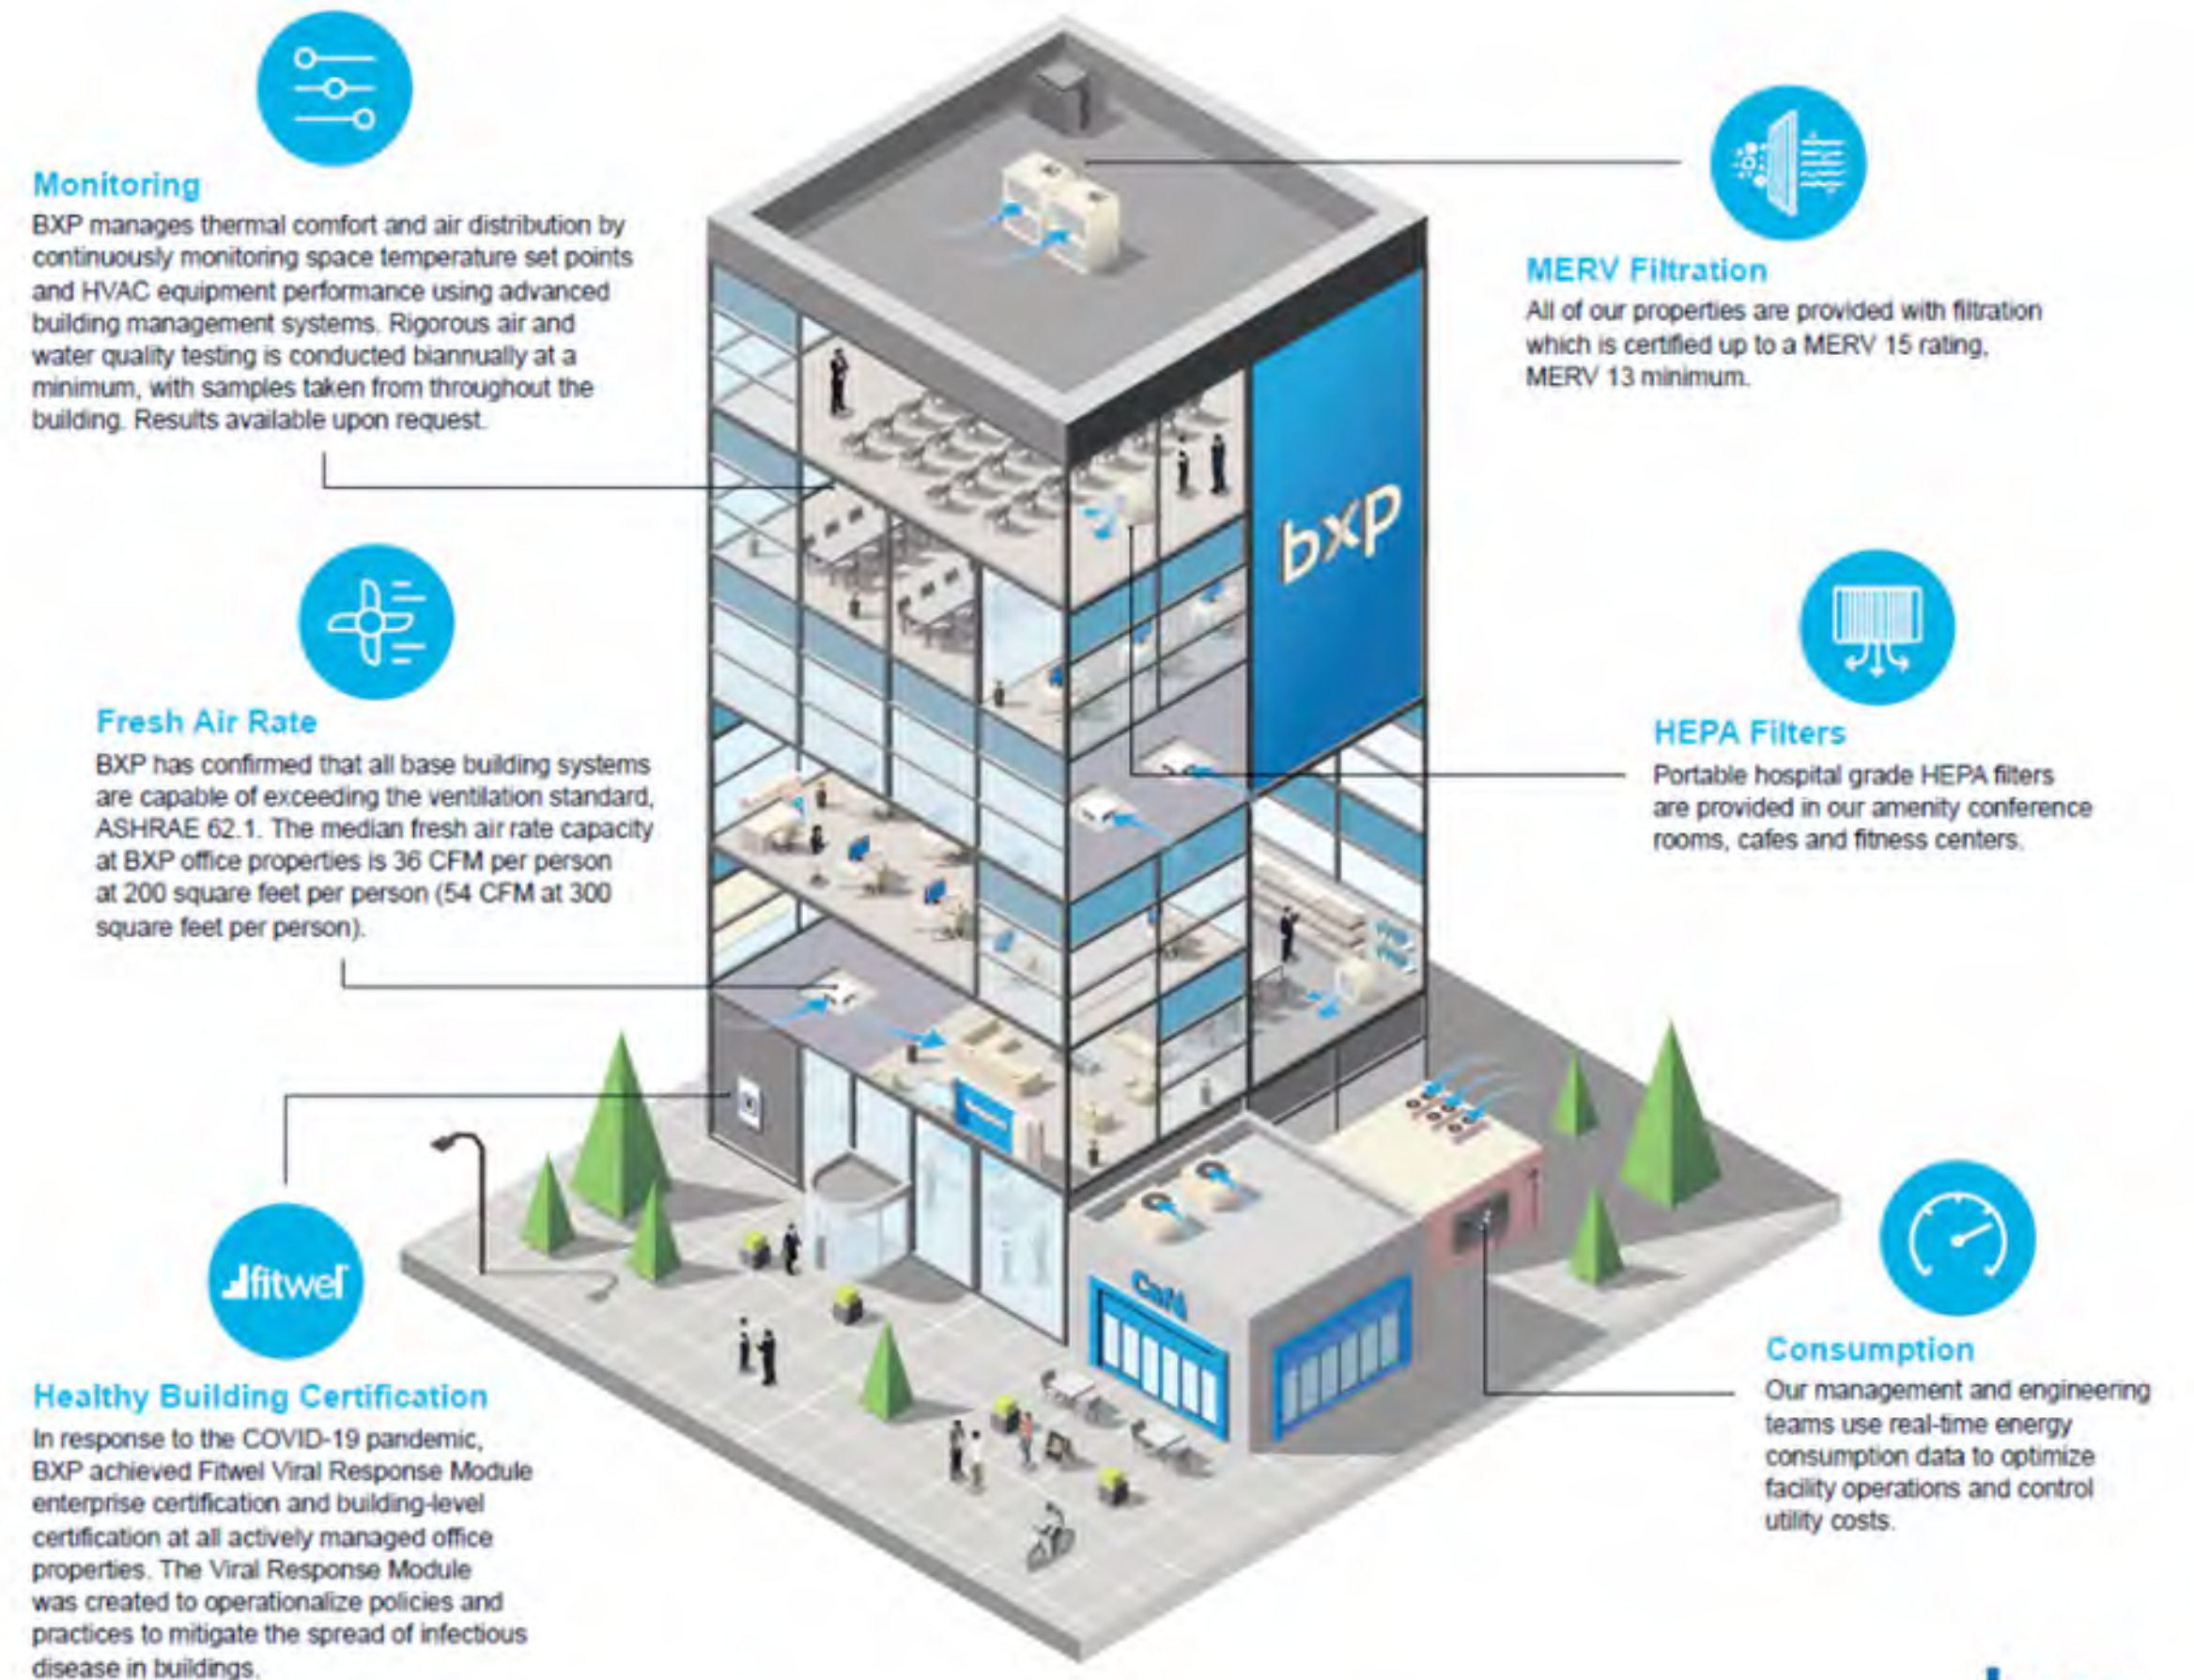

Embodied Carbon Strategy

Embodied carbon consists of all the GHG emissions associated with building construction, including those that arise from extracting, transporting, manufacturing, and installing building materials on site, as well as the operational and end-of-life emissions associated with those materials.

Priorities

- Perform Life Cycle Assessment on all new development projects, requiring embodied carbon measurement and reduction recommendations
- Add tracking requirements to specifications (similar to LEED, 'EPD Forms,' sample specs available)
- Target a 14% reduction in embodied carbon intensity (kgCO₂e/SF) across all new development projects
- Update carbon inventory with Scope 3 emissions, including embodied carbon

Priorities

- Transition risk management and building performance standard compliance planning
- Continued focus on climate risk assessment at existing buildings, acquisitions and potential new development sites
- Preparation for SEC proposed climate rule adoption
- Supply chain engagement to drive embodied carbon reductions and renewable energy availability
- Implementation of affordable and resilient electrification and heat recovery solutions
- Execution of carbon neutral operations goal

2.

The \$730M Term Loan was used to acquire Madison Centre on May 17, 2022.

For variable rate debt, the weighted average interest rate is calculated using Libor and SOFR as of August 31, 2022. Actual interest rates on our variable rate debt may differ materially.

BXP Cost of Debt¹ - Consolidated

1. Weighted-average interest rates for consolidated debt. GAAP interest rates differ from the stated interest rates due to the inclusion of the amortization of financing charges and the effects of hedging transactions (if any).
2. Interest rates for 2023 assume the refinancing at maturity at assumed market interest rates of \$1.23B of outstanding consolidated debt that is scheduled to mature in 2023 (the “2023 Debt Maturities”). Does not assume any additional refinancings or early repayments of debt. There can be no assurance that the 2023 Debt Maturities will be refinanced at the assumed interest rates or at all.

CMBS

bxp

US CMBS Issuance

Overall (\$/B)

Transaction Type Breakout (\$/B)

Annual US CMBS Issuance by Property Type

US CMBS Historical Spreads

Historical Conduit Spreads

Mortgage Market Overview by Lender Type

Banks very selectively quoting deals given limited balance sheet availability due to large origination volume in 1H'22 and heightened January 2023 stress test. Banks increasingly unwilling to take syndication risk for large loans.

Debt funds continue to actively quote loans on transitional and stabilized assets. However, limited desire to take risk on placing A Note on large transactions.

CMBS market has been significantly impacted, given the volatility in both base rates (inflation) and spreads (continued global unrest and pending recession). As a result, 1H'22 origination volume is down 13% from 1H'21 and recent AAA-conduit pricing is in the S+1.60% – 1.70% range.

Life Co.'s widened pricing 50-75 bps as CIOs looked at relative performance of other fixed income instruments (Corporates, ABS, etc.). Primarily focused on core multifamily, industrial, and grocery anchored retail with best spreads in the T + 1.75-2.00%.

Banks

bxp

Bank Market Considerations Today

- Large domestic banks on the sidelines
- Little appetite for syndication risk
- Office headwinds, both from a recessionary and WFH sentiment standpoints
- Limited availability of warehouse financing for debt funds
- Likely to see pressure on pricing grids for corporates as the volatility continues and there is upward pressure on short-term rates
- **Despite volatility, capital is available to top-tier borrowers at modest leverage ($\leq 50\%$ LTV)**

The Case For Optimism In 2023

Bank CFO's Conservative Given Upcoming Stress Tests	Today	Q1 2023
	Increased Stress Test requirements forcing CFO's to pull back risky lending practices	After passing stress tests in December, Banks can operate normally with confidence
	Fed Monetary Tightening Causing Insecurity in Fixed Income Market	Market expects Fed to slow or stop its monetary tightening regime in Q1 2023
	Balance Sheet Capacity (Bank/LifeCo's) at or Near Annual Allocations	Originators receive new annual allocations in January each year

- Est. initial occupancy: Q2 2025

1. Includes 100% of consolidated and unconsolidated properties.
2. Represents BXP's Share of Estimated Total Investment, including income (loss) and interest carry during development.
3. Represents BXP's Share of projected stabilized NOI divided by BXP's Share of Estimated Total Investment. There can be no assurance that the Company will be successful in leasing the properties on the expected schedule or at the assumed rental rates, and there can be no assurance that the Company achieves the projected returns.

4. As of July 22, 2022. Includes leases with future commencement dates.
5. The building is 69% placed in-service.
6. The building is 4% placed in-service.

1. See Appendix. There can be no assurance that the Company will be successful in leasing the properties on the expected schedule or at the assumed rental rates. See Appendix for discussion of risks and uncertainties that could cause actual results to differ materially from these forward-looking statements. Includes planned 300 Binney Street redevelopment in Cambridge, MA.

2. Projected value creation is the estimated value upon completion, which is calculated assuming a projected weighted-average stabilized BXP's Share of NOI—cash yield of 7.8% on BXP's Share of Estimated Total Investment, with a \$1 per foot management fee deduction, which is then valued at a 4.5% cap rate, minus BXP's Share of Estimated Total Investment of the active development pipeline, delivered projects that have not yet stabilized, and projects expected to commence in 2022.

3. Includes View Boston Observatory's projected partially stabilized NOI for 2024 vs. its projected fully stabilized NOI, which is anticipated after a multi-year ramp up.

4. CAGR is based on (x) the difference of (i) Q2 2022 BXP's Share of EBITDA—cash of \$433.2 million multiplied by four (4), less (ii) BXP's Share of Annualized NOI—cash from Development Projects of \$13.1 million, plus (y) the cumulative projected BXP's Share of NOI—cash upon stabilization from development deliveries through the end of Q4 2025. See Appendix.

FORWARD-LOOKING STATEMENTS

Certain comments and presentations at this conference contain forward-looking statements within the meaning of the federal securities laws, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions, in each case, to the extent applicable. We caution investors that forward-looking statements are based on current beliefs, expectations of future events and assumptions made by, and information currently available to, our management. When used, the words “anticipate,” “believe,” “budget,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “project,” “should,” “will” and similar expressions that do not relate solely to historical matters are intended to identify forward-looking statements. These statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance or occurrences, which may be affected by known and unknown risks, trends, uncertainties and factors that are, in some cases, beyond our control. Should one or more of these known or unknown risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expressed or implied by the forward-looking statements. We caution you that, while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance or occurrences and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

The most significant factors that may cause actual results to differ materially from those expressed or implied by the forward-looking statements include the impact on global and U.S. economic conditions due to the ongoing COVID-19 pandemic, the ongoing war in Ukraine, continuing inflation, increasing interest rates, and supply-chain disruptions, as well as the risks described (i) the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2021 including those described under the caption “Risk Factors,” (ii) our Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2022 including those described under the caption “Risk Factors” and (iii) our subsequent filings under the Exchange Act.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

- the risks and uncertainties related to the impact of (1) the COVID-19 global pandemic, including the emergence of additional variants, the effectiveness, availability and distribution of vaccines, including their efficacy against new variant strains and the willingness of individuals to be vaccinated, (2) the impact of geopolitical conflicts, including the war in Ukraine, and (3) the severity and duration of the indirect economic impacts of the foregoing, such as recession, supply chain disruptions, labor market disruptions, rising inflation, increasing interest rates, dislocation and volatility in capital markets, job losses, potential longer-term changes in consumer and client behavior, as well as possible future governmental responses;
- volatile or adverse global economic and geopolitical conditions, health crises and dislocations in the credit markets could adversely affect our access to cost-effective capital and have a resulting material adverse effect on our business opportunities, results of operations and financial condition;
- risks associated with downturns in the national and local economies, increasing interest rates, and volatility in the securities markets;
- general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, client space utilization, dependence on clients' financial condition, and competition from other developers, owners and operators of real estate);
- failure to manage effectively our growth and expansion into new markets and sub-markets or to integrate acquisitions and developments successfully;
- the ability of our joint venture partners to satisfy their obligations;

FORWARD-LOOKING STATEMENTS (continued)

- risks and uncertainties affecting property development and construction (including, without limitation, rising inflation, supply chain disruptions, labor shortages, construction delays, increased construction costs, cost overruns, inability to obtain necessary permits, client accounting considerations that may result in negotiated lease provisions that limit a client's liability during construction, and public opposition to such activities);
- risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments or refinance existing indebtedness, including the impact of higher interest rates on the cost and/or availability of financing;
- risks associated with forward interest rate contracts and the effectiveness of such arrangements;
- risks associated with actual or threatened terrorist attacks;
- costs of compliance with the Americans with Disabilities Act and other similar laws;
- potential liability for uninsured losses and environmental contamination;
- risks associated with the physical effects of climate change;
- risks associated with security breaches through cyber attacks, cyber intrusions or otherwise, as well as other significant disruptions of our information technology (IT) networks and related systems, which support our operations and our buildings;
- risks associated with BXP's potential failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended;
- possible adverse changes in tax and environmental laws;
- the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results;
- risks associated with possible state and local tax audits; and
- risks associated with our dependence on key personnel whose continued service is not guaranteed.

The risks set forth above are not exhaustive. Other statements or presentations made during this conference may include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment, particularly in light of the circumstances relating to COVID-19 and the war in Ukraine. New risk factors emerge from time to time and it is not possible for management to predict all risk factors, nor can we assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q for future periods and Current Reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Current Reports on Form 8-K or otherwise, for a discussion of risks and uncertainties that may cause actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements. We expressly disclaim any responsibility to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events, or otherwise, and you should not rely upon these forward-looking statements after the date of this conference.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS

This Appendix contains definitions of certain non-GAAP financial measures and other terms that the Company may use in statements or presentations during this conference and, where applicable, quantitative reconciliations of the differences between the non-GAAP financial measures and the most directly comparable GAAP financial measures, the reasons why management believes these non-GAAP financial measures provide useful information to investors about the Company's financial condition and results of operations and the other purposes for which management uses the measures. Additional detail can be found in the Company's most recent annual report on Form 10-K and quarterly reports on Form 10-Q, as well as other documents the Company files or furnishes to the SEC from time to time.

The Company presents "**BXP's Share**" of certain of these measures, which are non-GAAP financial measures that are calculated as the consolidated amount calculated in accordance with GAAP, plus the Company's share of the amount from the Company's unconsolidated joint ventures (calculated based upon the Company's percentage ownership interest and, in some cases, after priority allocations), minus the Company's partners' share of the amount from the Company's consolidated joint ventures (calculated based upon the partners' percentage ownership interests and, in some cases, after priority allocations, income allocation to private REIT shareholders and their share of fees due to the Company). Management believes that presenting "BXP's Share" of these measures provides useful information to investors regarding the Company's financial condition and/or results of operations because the Company has several significant joint ventures and in some cases, the Company exercises significant influence over, but does not control, the joint venture, in which case GAAP requires that the Company account for the joint venture entity using the equity method of accounting and the Company does not consolidate it for financial reporting purposes. In other cases, GAAP requires that the Company consolidate the venture even though the Company's partner(s) owns a significant percentage interest. As a result, management believes that presenting BXP Share of various financial measures in this manner can help investors better understand the Company's financial condition and/or results of operations after taking into account its true economic interest in these joint ventures. The Company cautions investors that the ownership percentages used in calculating "BXP's Share" of these measures may not completely and accurately depict all of the legal and economic implications of holding an interest in a consolidated or unconsolidated joint venture. For example, in addition to partners' interests in profits and capital, venture agreements vary in the allocation of rights regarding decision making (both routine and major decisions), distributions, transferability of interests, financing and guarantees, liquidations and other matters. As a result, presentations of "BXP's Share" of a financial measure should not be considered a substitute for, and should only be considered together with and as a supplement to, the Company's financial information presented in accordance with GAAP.

In addition, the Company presents certain of these measures on a "**Annualized**" basis, which means the measure for the applicable quarter is multiplied by four (4). Management believes that presenting "Annualized" measures allows investors to compare results of a particular quarter to the same measure for full years and thereby more easily assess trend data. However, the Company cautions investors that "Annualized" measures should not be considered a substitute for the measure calculated in accordance with GAAP and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS (continued)

EBITDAre

Pursuant to the definition of Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“Nareit”), the Company calculates Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate, or “EBITDAre,” as net income (loss) attributable to Boston Properties, Inc. common shareholders, the most directly comparable GAAP financial measure, plus preferred dividends, preferred stock redemption charge, net income attributable to noncontrolling interests, interest expense, losses (gains) from early extinguishments of debt, losses from interest rate contracts, depreciation and amortization expense, impairment loss and adjustments to reflect the Company's share of EBITDAre from unconsolidated joint ventures, less gains (losses) on sales of real estate and gain on sale of investment in unconsolidated joint venture. EBITDAre is a non-GAAP financial measure. The Company uses EBITDAre internally as a performance measure and believes EBITDAre provides useful information to investors regarding its financial condition and results of operations at the corporate level because, when compared across periods, EBITDAre reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, general and administrative expenses and acquisition and development activities on an unleveraged basis, providing perspective not immediately apparent from net (loss) income attributable to Boston Properties, Inc. common shareholders.

In some cases the Company also presents (A) **BXP's Share of EBITDAre – cash**, which is BXP's Share of EBITDAre after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, non-cash termination income adjustment (fair value lease amounts) and non-cash gains (losses) from early extinguishment of debt and adding straight-line ground rent expense (excluding prepaid ground rent expense), stock-based compensation expense and lease transaction costs that qualify as rent inducements, and (B) **Annualized EBITDAre**, which is EBITDAre for the applicable fiscal quarter ended multiplied by four (4). Presenting BXP's Share of EBITDAre – cash allows investors to compare EBITDAre across periods without taking into account the effect of certain non-cash rental revenues, ground rent expense and stock based compensation expense. Similar to depreciation and amortization, because of historical cost accounting, fair value lease revenue may distort operating performance measures at the property level. Additionally, presenting EBITDAre excluding the impact of straight-line rent provides investors with an alternative view of operating performance at the property level that more closely reflects rental revenue generated at the property level without regard to future contractual increases in rental rates. In addition, the Company's management believes that the presentation of Annualized EBITDAre provides useful information to investors regarding the Company's results of operations because it enables investors to more easily compare quarterly EBITDAre to EBITDAre from full fiscal years.

The Company's computation of EBITDAre may not be comparable to EBITDAre reported by other REITs or real estate companies that do not define the term in accordance with the current Nareit definition or that interpret the current Nareit definition differently. The Company believes that in order to facilitate a clear understanding of its operating results, EBITDAre should be examined in conjunction with net income attributable to Boston Properties, Inc. common shareholders as presented in the Company's consolidated financial statements. EBITDAre should not be considered a substitute to net income attributable to Boston Properties, Inc. common shareholders in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS (continued)

Funds Available for Distribution (FAD) and FAD Payout Ratio

In addition to Funds from Operations (FFO), which is defined on the following page, the Company presents Funds Available for Distribution to common shareholders and common unitholders (FAD), which is a non-GAAP financial measure that is calculated by (1) adding to FFO lease transaction costs that qualify as rent inducements, non-real estate depreciation, non-cash losses (gains) from early extinguishments of debt, preferred stock redemption charge, stock-based compensation expense, partners' share of consolidated and unconsolidated joint venture 2nd generation tenant improvement and leasing commissions (included in the period in which the lease commences) and unearned portion of capitalized fees, (2) eliminating the effects of straight-line rent, straight-line ground rent expense adjustment (excluding prepaid ground rent expense), fair value interest adjustment and hedge amortization and fair value lease revenue, and (3) subtracting maintenance capital expenditures, hotel improvements, equipment upgrades and replacements, 2nd generation tenant improvement and leasing commissions (included in the period in which the lease commences), non-cash termination income adjustment (fair value lease amounts) and impairments of non-depreciable real estate. The Company believes that the presentation of FAD provides useful information to investors regarding the Company's results of operations because FAD provides supplemental information regarding the Company's operating performance that would not otherwise be available and may be useful to investors in assessing the Company's operating performance. Additionally, although the Company does not consider FAD to be a liquidity measure, as it does not make adjustments to reflect changes in working capital or the actual timing of the payment of income or expense items that are accrued in the period, the Company believes that FAD may provide investors with useful supplemental information regarding the Company's ability to generate cash from its operating performance and the impact of the Company's operating performance on its ability to make distributions to its shareholders. Furthermore, the Company believes that FAD is frequently used by analysts, investors and other interested parties in the evaluation of its performance as a REIT and, as a result, by presenting FAD the Company is assisting these parties in their evaluation. FAD should not be considered as a substitute for net income (loss) attributable to Boston Properties, Inc.'s common shareholders determined in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

FAD Payout Ratio is defined as distributions to common shareholders and unitholders (excluding any special distributions) divided by FAD.

FAD Per Share - Diluted is defined as FAD divided by the number of weighted average shares outstanding - diluted.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS (continued)

Funds from Operations (FFO)

Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of Nareit, the Company calculates Funds from Operations, or “FFO,” by adjusting net income (loss) attributable to Boston Properties, Inc. common shareholders (computed in accordance with GAAP) for gains (or losses) from sales of properties, impairment losses on depreciable real estate consolidated on the Company’s balance sheet, impairment losses on its investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures, gain on sale of investment included within (income) loss from unconsolidated joint ventures and real estate-related depreciation and amortization. FFO is a non-GAAP financial measure, but the Company believes the presentation of FFO, combined with the presentation of required GAAP financial measures, has improved the understanding of operating results of REITs among the investing public and has helped make comparisons of REIT operating results more meaningful. Management generally considers FFO and FFO per share to be useful measures for understanding and comparing the Company’s operating results because, by excluding gains and losses related to sales of previously depreciated operating real estate assets, impairment losses and real estate asset depreciation and amortization (which can differ across owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO per share can help investors compare the operating performance of a company’s real estate across reporting periods and to the operating performance of other companies.

The Company’s computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current Nareit definition or that interpret the current Nareit definition differently. In order to facilitate a clear understanding of the Company’s operating results, FFO should be examined in conjunction with net income attributable to Boston Properties, Inc. common shareholders as presented in the Company’s consolidated financial statements. FFO should not be considered as a substitute for net income attributable to Boston Properties, Inc. common shareholders (determined in accordance with GAAP) or any other GAAP financial measures and should only be considered together with and as a supplement to the Company’s financial information prepared in accordance with GAAP.

In-Service Properties

The Company treats a property as being “in-service” upon the earlier of (1) lease-up and completion of tenant improvements or (2) one year after cessation of major construction activity as determined under GAAP. The determination as to when an entire property should be treated as “in-service” involves a degree of judgment and is made by management based on the relevant facts and circumstances of the particular property. For portfolio operating and occupancy statistics, the Company specifies a single date for treating a property as “in-service,” which is generally later than the date the property is partially placed in-service under GAAP. Under GAAP, a property may be placed in-service in stages as construction is completed and the property is held available for occupancy. In addition, under GAAP, when a portion of a property has been substantially completed and either occupied or held available for occupancy, the Company ceases capitalizing costs on that portion, even though it may not treat the property as being “in-service,” and continues to capitalize only those costs associated with the portion still under construction. In-service properties include properties held by the Company’s unconsolidated joint ventures.

Net Debt

Net Debt is equal to (A) the Company’s consolidated debt plus special dividends payable (if any) less (B) cash and cash equivalents and cash held in escrow for potential Section 1031 like kind exchange(s). The Company believes that the presentation of Net Debt provides useful information to investors because the Company reviews Net Debt as part of the management of its overall financial flexibility, capital structure and leverage. In particular, Net Debt is an important component of the Company’s ratio of **BCP’s Share of Net Debt to BCP’s Share of EBITDA**. BCP’s Share of Net Debt is calculated in a similar manner to Net Debt, except that BCP’s Share of Debt and BCP’s Share of cash are utilized instead of the Company’s consolidated debt and cash in the calculation. The Company believes BCP’s Share of Net Debt to BCP’s Share of EBITDA is useful to investors because it provides an alternative measure of the Company’s financial flexibility, capital structure and leverage based on its percentage ownership interest in all of its assets. Furthermore, certain debt rating agencies, creditors and credit analysts monitor the Company’s Net Debt as part of their assessments of its business. The Company may utilize a considerable portion of its cash and cash equivalents at any given time for purposes other than debt reduction. In addition, cash and cash equivalents and cash held in escrow for potential Section 1031 like kind exchange(s) may not be solely controlled by the Company. The deduction of these items from consolidated debt in the calculation of Net Debt therefore should not be understood to mean that these items are available exclusively for debt reduction at any given time.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS (continued)

Net Operating Income (NOI)

Net operating income (NOI) is a non-GAAP financial measure equal to net income attributable to Boston Properties, Inc. common shareholders, the most directly comparable GAAP financial measure, plus (1) preferred stock redemption charge, preferred dividends, net income attributable to noncontrolling interests, corporate general and administrative expense, payroll and related costs from management services contracts, transaction costs, impairment losses, depreciation and amortization expense, gains (losses) from early extinguishments of debt, losses from interest rate contracts and interest expense, less (2) development and management services revenue, direct reimbursements of payroll and related costs from management services contracts, income (loss) from unconsolidated joint ventures, gains (losses) on sales of real estate, gains (losses) on sale of investment in unconsolidated joint venture, gains (losses) from investments in securities, interest and other income (loss) and other income - assignment fee. In some cases, the Company also presents (1) **NOI – cash**, which is NOI after eliminating the effects of straight-line rent (excluding the impact related to deferred revenue related to improvements to long-lived assets paid for by a client), fair value lease revenue, straight-line ground rent expense adjustment (excluding prepaid ground rent expense) and lease transaction costs that qualify as rent inducements in accordance with GAAP, and (2) **NOI and NOI – cash, in each case excluding termination income**.

The Company uses these measures internally as performance measures and believes they provide useful information to investors regarding the Company's results of operations and financial condition because, when compared across periods, they reflect the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income. For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. Similarly, interest expense may be incurred at the property level even though the financing proceeds may be used at the corporate level (e.g., used for other investment activity). In addition, depreciation and amortization expense because of historical cost accounting and useful life estimates, may distort operating performance measures at the property level. Presenting NOI – cash allows investors to compare NOI performance across periods without taking into account the effect of certain non-cash rental revenues and ground rent expenses. Similar to depreciation and amortization expense, fair value lease revenues, because of historical cost accounting, may distort operating performance measures at the property level. Additionally, presenting NOI excluding the impact of the straight-lining of rent provides investors with an alternative view of operating performance at the property level that more closely reflects net cash generated at the property level on an unleveraged basis. Presenting NOI measures that exclude termination income provides investors with additional information regarding operating performance at a property level that allows them to compare operating performance between periods without taking into account termination income, which can distort the results for any given period because they generally represent multiple months or years of a client's rental obligations that are paid in a lump sum in connection with a negotiated early termination of the client's lease and are not reflective of the core ongoing operating performance of the Company's properties.

Rental Obligations

Rental Obligations is defined as the contractual base rents (but excluding percentage rent) and budgeted reimbursements from clients under existing leases. These amounts exclude rent abatements.

Rental Revenue

Rental Revenue is equal to Total revenue, the most directly comparable GAAP financial measure, less development and management services revenue and direct reimbursements of payroll and related costs from management services contracts. The Company uses Rental Revenue internally as a performance measure and in calculating other non-GAAP financial measures (e.g., NOI), which provides investors with information regarding our performance that is not immediately apparent from the comparable non-GAAP measures and allows investors to compare operating performance between periods. The Company also presents **Rental Revenue (excluding termination income)** because termination income can distort the results for any given period because it generally represents multiple months or years of a client's rental obligations that are paid in a lump sum in connection with a negotiated early termination of the client's lease and does not reflect the core ongoing operating performance of the Company's properties.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER TERMS (continued)

Same Properties

In the Company's analysis of NOI, particularly to make comparisons of NOI between periods meaningful, it is important to provide information for properties that were in-service and owned by the Company throughout each period presented. The Company refers to properties acquired or placed in-service prior to the beginning of the earliest period presented and owned by the Company through the end of the latest period presented as "Same Properties." "Same Properties" therefore exclude properties placed in-service, acquired, repositioned or in development or redevelopment after the beginning of the earliest period presented or disposed of prior to the end of the latest period presented. Accordingly, it takes at least one year and one quarter after a property is acquired or treated as "in-service" for that property to be included in "Same Properties."

RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER FINANCIAL INFORMATION (UNAUDITED)

Projected FFO

BXP's guidance for the third quarter and full year 2022 for diluted earnings per common share attributable to Boston Properties, Inc. (EPS) and diluted funds from operations (FFO) per common share attributable to Boston Properties, Inc. is set forth and reconciled below. Except as described below, the estimates reflect management's view of current and future market conditions, including assumptions with respect to rental rates, occupancy levels, the timing of the lease-up of available space and the earnings impact of the events referenced in the Company's earnings release issued on July 26, 2022 and those referenced during the Company's conference call on July 27, 2022. Except as otherwise publicly disclosed, the estimates do not include the impacts of any potential (1) capital markets activity, (2) future write-offs or reinstatements of accounts receivable and accrued rent balances, or (3) future impairment charges. EPS estimates may be subject to fluctuations as a result of several factors, including changes in the recognition of depreciation and amortization expense, impairment losses on depreciable real estate and any gains or losses associated with disposition activity. BXP is not able to assess at this time the potential impact of these factors on projected EPS. By definition, FFO does not include real estate-related depreciation and amortization, impairment losses on depreciable real estate, or gains or losses associated with disposition activities. There can be no assurance that BXP's actual results will not differ materially from the estimates set forth below.

	Third Quarter 2022		Full Year 2022	
	Low	High	Low	High
Projected EPS (diluted)	\$ 0.74	\$ 0.76	\$ 5.40	\$ 5.45

¹ For the three months ended June 30, 2022, see "Joint Ventures-Unconsolidated" in this Appendix.

² For the three months ended June 30, 2022, see "Joint Ventures-Consolidated" in this Appendix.

³ Lease transaction costs are generally included in second generation tenant improvements and leasing commissions in the period in which the lease commences.

⁴ Excludes the straight-line impact of approximately \$(36.9) million and \$(14.7) million for Straight-line rent and fair value lease revenue and Partners' share of straight-line rent and fair value of lease revenue from consolidated JVs, respectively, in connection with the deferred revenue received from a client. The client paid for improvements to a long-lived asset of the Company resulting in deferred revenue for the period until the asset was substantially complete, which occurred in the third quarter of 2019.

¹ Lease transaction costs are generally included in second generation tenant improvements and leasing commissions in the period in which the lease commences.

² Represents the net adjustment for above- and below-market leases that are being amortized over the terms of the respective leases in-place at the property acquisition dates.

³ For the six months ended June 30, 2022 and the years ended December 31, 2021, 2020, 2019, 2018, 2017 and 2016 includes the straight-line impact of the Company's 99-year ground and air rights lease related to the 100 Clarendon Street garage and Back Bay Transit Station. The Company has allocated contractual ground lease payments aggregating approximately \$34.4 million, which it expects to by the end of 2024 with no payments thereafter. The Company is recognizing these amounts on a straight-line basis over the 99-year term of the ground and air rights lease.

⁴ Maintenance capital expenditures do not include planned capital expenditures related to acquisitions and repositioning capital expenditures.

¹ Lease revenue includes recoveries from clients and service income from clients.

² See the Definitions section of this Appendix package.

³ Amounts represent the partners' share based on their respective ownership percentage.

⁴ Capitalized fees are eliminated in consolidation and recognized over the life of the asset as depreciation and amortization are added back to the Company's net income.

⁵ Amounts represent the partners' share based on their respective ownership percentage and is adjusted for basis differentials and the allocations of management and other fees and depreciation and amortization related to capitalized fees.

RECONCILIATIONS OF NON-GAAP FINANCIAL MEASURES AND OTHER FINANCIAL INFORMATION (UNAUDITED)

¹In light of the front-ended, uneven rental payments required by the Company's 99-year ground and air rights lease for the 100 Clarendon Street garage and Back Bay Transit Station in Boston, MA, and to make period-to-period comparisons more meaningful to investors, the adjustment does not include the straight-line impact of approximately \$115 and \$(103) for the three months ended June 30, 2022 and 2021, respectively; \$168 and \$167 for the three months ended March 31, 2022 and 2021, respectively; \$52 and \$144 for the three months ended December 31, 2021 and 2020, respectively; \$40 and \$98 for the three months ended September 30, 2021 and 2020, respectively; \$(103) and \$152 for the three months ended June 30, 2021 and 2020, respectively; \$167 and \$165 for the three months ended March 31, 2021 and 2020, respectively; \$144 and \$173 for the three months ended December 31, 2020 and 2019, respectively; \$98 and \$176 for the three months ended September 30, 2020 and 2019, respectively; \$152 and \$176 for the three months ended June 30, 2020 and 2019, respectively; \$165 and \$120 for the three months ended March 31, 2020 and 2019, respectively; \$173 and \$168 for the three months ended December 31, 2019 and 2018, respectively; \$176 and \$175 for the three months ended September 30, 2019 and 2018, respectively; \$176 and \$116 for the three months ended June 30, 2019 and 2018, respectively; \$120 and \$(46) for the three months ended March 31, 2019 and 2018, respectively; \$168 and \$(31) for the three months ended December 31, 2018 and 2017, respectively; \$175 and \$(375) for the three months ended September 30, 2018 and 2017, respectively; \$116 and \$(531) for the three months ended June 30, 2018 and 2017, respectively; \$(46) and \$(302) for the three months ended March 31, 2018 and 2017, respectively; \$(31) and \$27 for the three months ended December 31, 2017 and 2016, respectively; \$(375) and \$60 for the three months ended September 30, 2017 and 2016, respectively; \$(531) and \$(36) for the three months ended June 30, 2017 and 2016, respectively and \$(302) and \$5 for the three months ended March 31, 2017 and 2016, respectively. As of June 30, 2022, the Company had remaining lease payment obligations aggregating approximately \$25.3 million, all of which it expects to incur by the end of 2024 with no payments thereafter. Under GAAP, the Company recognizes expense of \$(87) per quarter on a straight-line basis over the term of the lease. However, unlike more traditional ground and air rights leases, the timing and amounts of the rental payments by the Company correlate to the uneven timing and funding by the Company of capital expenditures related to improvements at the Back Bay Transit Station. As a result, the amounts excluded from the adjustment each quarter through 2024 may vary significantly.

²For the three months ended September 30, 2019, excludes the straight-line impact of approximately \$(36.9) million for Straight-line rent, \$(14.7) million for Partners' share of NOI - cash from consolidated JV (excluding termination income) and \$(22.2) million for BXP's Share of Same Property NOI - cash (excluding termination income) in connection with the deferred revenue received from a client. The client paid for improvements to a long-lived asset of the Company resulting in deferred revenue for the period until the asset was substantially complete, which occurred in the third quarter 2019.
